Federal Communications Commission
Washington, DC

Dear Sir/Madame:

As a resident of Massachusetts, and as the President/CEO of the Urban League of Eastern MA, I fully support AT&T's acquisition of TMobile. With this merger, AT&T will improve its ability to provide quality service with less disrupted call issues. It will also help the company keep up with growing mobile phone usage.

We hope that you look upon the proposed transition favorably. This will improve cell phone service for many people in the Boston area and the surrounding cities in the Commonwealth.

Sincerely,

Darnell L. Williams
President and CEO
